Former Women's UFC Champion
Beat Rhonda Rousey to win Title

Todd Gurley – LA Rams Running Back
2015 Rookie of the Year;
2018 Offensive Player of the Year

Recovery Redefined:

Recovery is critical for athletes across all sports (Soccer, Lacrosse, NFL, NBA, MLB, MMA), and the importance is now being understood at the middle school and high school level.

How it Works:

Sleeves slide up past an athlete's thighs delivering sequential compression that expedites recovery. It simulates localized "active recovery" in a passive manner because the recovery is conducted at rest.

Benefits:

- Increases circulation/venous return, rapidly accelerating the body's re-absorption of the elements causing soreness and fatigue in the muscle.
- Effectively removes metabolic waste/lactic acid faster than any traditional recovery or rest alone

Pricing Information:

- \$10 → 15 minutes
- \$15 → 30 minutes

Most popular option:
\$20 → **Unlimited ALL DAY**

Bring recovery to your next event, tournament or household!
